

Belle

Outdoor

Belle is a 8.75mm pixel pitch bar type product designed to display high resolution video image for concave wall structure. Our design engineering gives the fixture an excellent bending capability which makes it installable on an irregular winding surface that rigid display screens can't be used on to. Thanks to its distinguished design characteristics, it shows great performance on projects with special environments that requires both flexible frame structure and high resolution that neither media façade product nor LED screen can't be used.

FEATURE

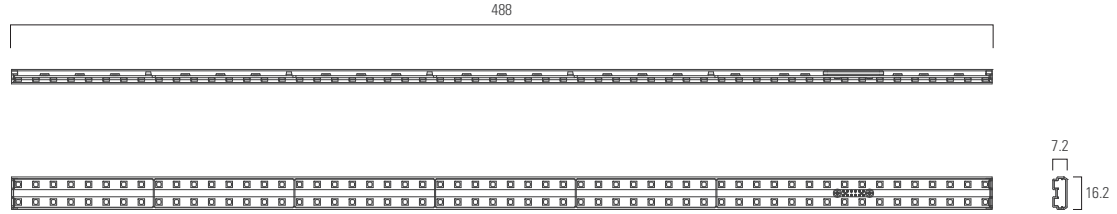

- Capable of complicated pattern display by individual pixel control
- Highly bendable and lightweight suitable for special purpose projects like car parade
- Higher pixel pitch 8.75mm as a bar type solution, more flexibility in housing structure as a media screen solution

PRODUCT SPECIFICATIONS

Model Number	GV-07BFI
LED	3in1 Full Color SMD
Size (w × h × d)	488mm x 16.2mm x 7.2 mm
Material	Polycarbonate
Weight	492g
Power Consumption	2 W
Brightness	2,500 nit
Pixel Pitch	8.75 mm
Beam Angle	(H)120° x (V)120°
Color Process	3 x 16 bit (Gamma Correction)
Operating Voltage	4.5 ~ 5V DC
Control	PWM
Protection	IP 65 (Outdoor/Indoor)
Operating Temperature	-10°C ~ 40°C / 14°F ~ 104°F
Storage Temperature	-20°C ~ 70°C / -4°F ~ 158°F
